Muestra	Número del encargo: 2012	La toma de muestra: 2012	Fecha informe: 2012
	Código del estudio: 170	Fecha de recepción: 2012	Muestra tomada por: Terceros

Resultado An overview is given of the tested fungi with the results in the tabel below.

Organisme	Result
Fusarium oxysporum	3
Fusarium solani	3
Phytophthora spp.	3
Phytophthora cryptogea	3
Pythium spp.	1

0 = not detectable, 1 = lightly present, 2 = moderate present, 3 = severely present

The sample is tested on the following fungi:

<i>Botrytis cinerae</i>	<i>Fusarium oxysporum</i>	<i>Phytophthora fragariae</i>	<i>Sclerotinia spp.</i>
<i>Colletotrichum spp.</i>	<i>Fusarium solani</i>	<i>Phytophthora nicotianae</i>	<i>Sclerotinia sclerotiorum</i>
<i>Colletotrichum acutatum</i>	<i>Phytophthora spp.</i>	<i>Pythium spp.</i>	<i>Trichoderma harzianum</i>
<i>Colletotrichum coccodes</i>	<i>Phytophthora cactorum</i>	<i>Pythium aphanidermatum</i>	<i>Trichoderma spp.</i>
<i>Colletotrichum gloeosporioides</i>	<i>Phytophthora capsici</i>	<i>Pythium irregulare</i>	<i>Verticillium spp.</i>
<i>Cylindrocarpon destructans</i>	<i>Phytophthora cryptogea</i>	<i>Pythium ultimum</i>	<i>Verticillium albo-atrum</i>
<i>Cylindrocladium scoparium</i>	<i>Phytophthora drechsleri</i>	<i>Rhizoctonia solani</i>	<i>Verticillium dahliae</i>

Explicaciones Attention: In this sample Phytophthora is detected. It is recommendable to take some action immediately.
 In this sample Fusarium solani is detected. It is recommendable to take action against this fungus.
